Facade Limestone Cleaned: October 21-23, 2008

Written by David on October, 22 2008

Huber Bros., Inc. of Shelbyville arrived at the Strand Theatre to complete the limestone cleaning work on the Strand Facade. This is paid for in part by the Facade Grant received from Mainstreet Shelbyville, Inc. The limestone elements of our facade have been hidden beneath layers of paint for decades. Huber Bros. were able to safely clean and seal the limestone. They used a needle vibrator to clean the stone. No chemicals were used. Thank you John and the gang for a great job!

The tool used to safely clean the limestone:
