Strand Theatre Weekly Email: March 15, 2009

Written by David on March, 15 2009

The week we have two mid-week events, so you get to read our news a little early.

TUESDAY NIGHT!! The Inaugural Strand Lecture for the 2009 Strand Lecture Series. You won't want to miss as we open up yet another chapter in our short, but growing, Strand history. The first ever Lecture Series will start with an interesting lecture on the Theatre Pipe Organ. There are lots of pictures, loads of music and even a pipe organ petting zoo! This lecture is free. There will be a surprise too! Come out and join us for an hour or so on this Tuesday March 17, 2009 @ 7:00pm. This event is free. Don't forget to wear green!

WEDNESDAY stop by and say "hi" to the Strand Volunteers at the Shelby County Chamber of Commerce Trade Show. We would love to talk to you. As you know, sometimes we get a busy running the theatre and just don't have the time to leisurely chat. This is your chance. We would like to hear your comments and suggestions. At last years Trade Show we had a whopping 4 events under our belt. We now have 70+. We've come a long way in 12 months. We look forward to seeing you there.

A quick theatre update. Steve D. and Darin M. decided it was time to remove some old wiring. They, along with Steve F., Bob S. and Ron B. did quite the job in the projection booth! There is a big pile of old conduit and wire to recycle. The more we do, the safer we get. We are fortunate to have Steve Dennis guiding this process. He only knows one way...the right way. We talk about talent all the time that comes to our theatre. Steve is on of the most talented people to grace the Strand!

We have just had confirmation that the "Reservoir Dogwoods" spoken word artists will be performing at the Poetry Reading on April 1st. Check out our web site for more details. This should be a real treat!

We will most likely talk to you the end of this week too. Work is progressing right along on various projects within the building. We will, in keeping with our mantra, keep you informed every step of the way.

We truly hope you can join us for the Lecture on Tuesday night. The Theatre Pipe Organ is very important to the Strand, and we look forward to the day when ours is installed. Please come out and learn a little about what is on the horizon for our Theatre.

Thank you for the support. You can't imagine how much it means to each and every volunteer. With your help, we are doing something good for the quality of life in Shelbyville and Shelby County.
