Fountain once again...

Written by David on May, 7 2009

The Strand originally had fountains on each end of the marquee. In our historical photograph from 1917, you can see them as part of the Strand sign. They disappeared decades ago. The next fountain was the for the drinks. It disappeared a few years ago. The current fountain was installed by the Coca-Cola Company this week.

On Wednesday May 6, 2009 work started on our fountain drinks. The process was not as easy as you might think. There was a lot of equipment that needed installed. We had our plumber and electrician working to get all the water, sewer and power ready.

It took the Coke technicians just under 4 hours to get us up and running. Take a look at some of the pictures from the process.

First the floor needed a 4" hole to the basement. Easier said than done. The floor is 5 layers thick:

The concession area was prepared. We had to remove and remount one cabinet. The unit sits next to our sink. We are happy to finally have our fountain Coke, Diet Coke, Sprite, Cherry Coke, Root Beer and Mr. Pibb!
