## **H1N1 Flu Preparedness Taken Seriously**

Written by David on May, 7 2009

Members of the Strand staff took part in training offered by the Shelby County Health Department. This seminar was on preparing our businesses and facilities to make responsible and informed choices about the potential H1N1 Flu threat.

Many interesting points were made. The lessons learned will be applied to how we operate our theatre. We appreciate the efforts of the Shelby County Health Department, the Shelby County Emergency Management office, and the Shelby County Extension Office.

Below are some excellent links that will help educate about this spreading virus.
