Movie: The Passion of the Christ April 2, 3 and 4

Written by Gary on February, 6 2010

From the opening shot to the falling credits, this film demands full control of ones body and emotion. So visually spectacular and physically gripping, this film had me literally convulsing as I attempted to watch what was onscreen. Mel Gibson's The Passion of the Christ, starring Jim Caviezel, is a retelling of the last hours of Jesus Christ. Believe me when I say that this production is more than a story, more than a movie; this film can only be described as an experience.
