## **Strand Theatre Lecture Series: Number 2**

Written by David on April, 20 2010

On Tuesday April 20, 2010 the Strand Theatre hosted the second lecture in its annual lecture series. Wonders of the Indiana Sky was presented by Jeff Patterson. Mr. Patterson is president of the Indiana Astronomical Society. He discussed what we see when we look up. The images from his presentation were especially beautiful on the Strand's screen.

An extended question and answer session followed the lecture. Mr. Patterson brought a meteorite that originally fell in Odessa, Texas. He stated that the meteorite was over 55,000 years old.

There are excellent reference materials on the IAS web site. Visit them at [www.iasindy.org](http://www.iasindy.org)
