Autism Lecture: April 20, 2011

Written by David on April, 20 2011

The Strand presented the first lecture of the 2011 series on April 20, 2011. The topic for this lecture was Autism. We were fortunate to be able to present Dana Renay, Executive Director of the Autism Society of America / Indiana.

After the formal lecture a very informative question and answer session was held. Families effected who have members effected by the disease weree able to get much needed answers to lingering question.

Many times the local school system is involved with autistic children. The Director of Special Education for Shelbyville Central Schools was in attendance to lend support and answers for the SCS perspective.

The Strand thanks the Autism Society for presenting this lecture on this most important topic.
