## Let There Be Light

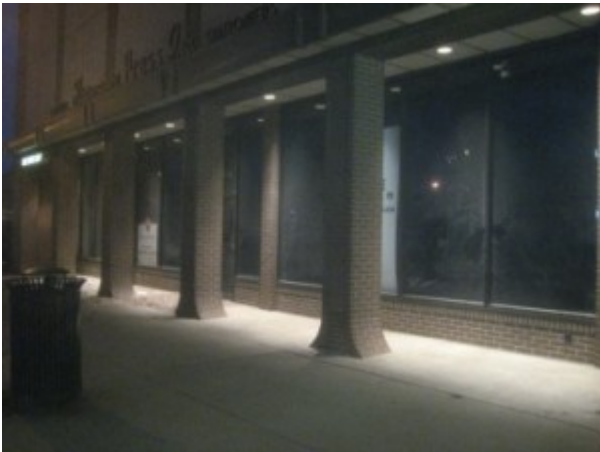

Written by David on December, 18 2011

The owners of the former Tippecanoe Building gave the Strand Volunteers permission to fix the facade lights on their building. This past weekend a group of volunteers spent several hours on this project. The result is a nice well lit sidewalk in front of the building.

The work will continue as we put new lamps that illuminates the upper part of the building. This project will help keep the area around the Strand safe and enhance the look of the 200 block of South Harrison Street.

The Strand thanks the Owners for allowing us to complete this work. Here is how it looks!
