Local Residents  
Anyone Who Wants to Help Make A Difference!

Have you noticed more bicycles in your community? Would you like your city or town to be considered a Bicycle Friendly Community? Are you? Would you like more people to consider riding or moving to this area because we are known for our leading active lifestyle and our management approach and are interested in what our residents who want to know how to help accommodate both bicycles and pedestrians?

If you answered "yes" to any of these questions, please join us on October 16, 2012 for an evening seminar designed to equip community leaders, planners, and business-owners with information and resources to help transform your community!

### Planning for a Bicycle Friendly Community Seminar

Learn about the health, economic, and community benefits that can be gained by planning for active transportation!

The seminar is presented in partnership with the following:

- Division of Planning and Community Development
- Strand Theatre
- Major Medical

This half-day seminar will provide you with the knowledge and skills necessary to plan for bicycling as a means of active travel. Just about 50% of the population of people (25% of people) using bicycle-powered mode such as for walking or biking and recreation in your community. Bicycle-friendly communities provide health, environmental, and economic benefits to the residents of your community. Topics of discussion will include:

- Bicycling and public health
- Bike safety issues
- Bike-friendly cities
- Other infrastructure
- Non of traditional programs
- Implementation
- GIS Systems
- Bike-friendly Business meeting/launch
- Bike-Friendly Mapping Exercise

**Register Today!**

It will include that:

- Employees who commute and can commute by bike, ride at lunchtime, or cycle to their jobs to help the local economy and have better air flow jobs because they're engaged and alert!
- Residents and workers who have jobs that give their employees better health care costs.
- Businesses and communities that promote cycling are viewed as "green" and socially responsible, and they attract and retain quality workers who want to be connected to progressive organizations and plans.
