Strand Theatre Work Session: March 2, 2013

Written by David on March, 3 2013

On Saturday we opened the doors for our first work session in six years. It was a great day. Volunteers Steve F., Rhonda S., Cody V., Bob S., Gary N., Rolland S., Patrick S., Don C., Pam D., & David F. worked on several things. The first order of business was to remove any junk from the front three offices (they have the windows). We then removed the plaster and lathe ceiling in the north office. After that was down and hauled away, we removed the plaster from the ceiling in the south office. All that is left on that ceiling is the lathe.

While work on the offices proceeded, another crew was on the roof repairing a roof leak. We found the cause and gave it another dose of roofing compound. We also cleared the south basement and moved tables into the Annex for the Shelby County Players' performance next week.

We also took the opportunity to do a little cleaning. Since we made a big mess, it was just a little extra effort to mop our balcony and the center aisle of the auditorium. We also cleaned and mopped our back fire exit. It needed it!

Take a look at the pictures on our web site. It isn't always the cleanest work, but it was fun! We had one tidbit fall from a rafter. It was a 1904 Morgan Silver Dollar with the front engraving facing to the right. Treasure still abound at the Strand.

Below are pictures from the day. Hover over the picture to read the tag.
