Hacked!

Written by David on September, 8 2013

The Strand Theatre's web site was hacked this past week. Our site, donated by the Automotive Parts Network (www.iNeedParts.com), is on a dedicated portion of the server. The Strand was informed that there was unusual bandwidth usage. The source of the problem were outbound emails from an unused section of the server. It seems that someone, with a foreign IP address, had taken control of that unused email section and used it to send out spam.

We isolated the problem, the IP addresses involved and disabled the email section of the server. Problem solved.

Another small issue in our journey to bring entertainment to our community!
