Facade Work

Written by David on October, 12 2013

Mainstreet Shelbyville awarded the Strand Theatre a facade grant to help us repaint the front of the theatre. It is hard to believe that it has been 5 years since we un-boarded and renovated the second story window.

When that work was done, it was accomplished by volunteers. It was decided at that time that the window frames were too high and the next time it was to be done that it was beyond the scope of volunteers.

Lucky for the Strand that it was not beyond the scope of Huber Bros. Painting. They were doing a job next door at First Baptist Church, so the lift was already in the neighborhood.

They have repaired and painted everything on the front of the theatre. Although it didn't look bad from afar, up close was a different story. Now everything looks clean and crisp.

Thank you John Huber and Mainstreet Shelbyville. We also want to thank Jim Marshall who helped us develop the scope of the project. It will look great!
